## MAINTENANCE TIPS SERVED ON A SEMI-REGULAR BASIS.

Your air setup needs maintenance. But you knew that, right? Of course you did. But just in case you didn't, you would've known that if you read our blog. See that's where we post up all sorts of stuff about what's going on, tips and tricks, plus other fun goodies. Seriously, there's some good stuff in there. You should check it out. Go ahead. We'll wait.

## **EVERY FITTING. 10% OFF.**

Did you think we were kidding last week? Nope. Seriously, every fitting, 10% off. Go buy some now.

(Discount shown in cart.)

**SHOP NOW**

## **IT'S GOING OVER THE BLOCK SOON. SEE IT WHEN WE MADE IT EVEN COOLER.**

Ronnie at C10 Talk is a pretty nice guy that builds some rad trucks, including this one, the legendary Yellowstone. Well he sold it recently, and now it's going over the block at the Barrett-Jackson auction next week.

But just a short time ago, we worked on that monster and installed an Accuair E-Level kit to give it that smooth up and down movement. Don't believe us? Then check it out for yourself.

### **WATCH NOW**

Install was easy and install was great! Commutation with customer service was by far one of the best experiences.
